Dear Mr. Glazier:

Re: Notice of Intention to Commence Small Mining Operations, Gold Springs Project, SM/021/009, Iron County, Utah

Thank you for your Notice of Intention to Commence Small Mining Operations received by the Division on May 4, 1988. The application is complete and no additional information is required at this time.

Since the project is located in an old mining area, it is advisable that the reclamation responsibilities be clearly delineated prior to start up. The Division will defer to State Lands and Forestry with regard to the details on shaft sealing, regrading requirements, and specific seed mixes. We can, however, provide recommendations in any of these areas if requested.

Should you wish to expand your operations beyond the 5 acre limitation, please notify this office as soon as possible to avoid any unnecessary delays.

Thank you for your cooperation, and best wishes in your mining operation.

Sincerely,

Frank J. Filas
Reclamation Engineer
